

SHEET METAL INDUSTRIES 1985 INDEX

JANUARY TO DECEMBER, VOLUME 62

A

A major force in expanding CNC markets	121
A microcomputer based blank layout solution for metal stamping	156
A planned approach to cost control — Part II	318
Abrasive techniques for efficient finishing	246
Acrylic or epoxy, The tough choice	560
Adding technology increases productivity	78
Adhesives aspect of the ECV3	563
Advanced fastener technology in Europe	555
Air plasma cutting system aids versatility	598
Aluminium coating line, Working principles of a high speed	98
Aluminium foil coater rolls into profitability	280
Aluminium stockholders what they are and what they should be	153
Aluminium, The multiple faces of	508
An industry comes of age	86
Annual Technical Review	410
Aqueous coil coatings: Have they come of age?	382
Automated 85 exhibition preview	193
Automate or liquidate	320
Automated production of office furniture	179
Automatic coil storage	65
Automobile floorline uses robotic, automatic and manual welding techniques	306
Automotive aftermarket supplier, Diverse skills at	243

B

Belts and brushes for deburring	246
Bending plate profiles and four-sided parts, System for	425
Blank layout solution for metal stamping, A microcomputer based	156
Blanks guillotined with the minimum of noise	241
Bulge-forming of thin-walled tubes, Profile shape and thickness distribution in free	326
Buyers' guide to robotic units	192

C

CAD/CAM system for cold rollform tooling	147
Carving a name in contemporary industry	272
Centenary celebration at Northland supplier	492
Chemically milled discs in explosives detectors	376
CNC improves plating productivity	430
CNC markets, A major force in expanding	121
CNC, Office equipment manufacturer goes	184
CNC profiling tables	596
Coater rolls into profitability, Aluminium foil	280
Coating facilities, Multi-national expands	277
Coating, Flexible and economic	88
Coating line, Working principles of a high speed aluminium	98
Coating, The new name in	93
Coil coater commissions plant, The new name in coating — Europe's latest	93
Coil coating capacity, World	90
Coil coating in North America	569
Coil coating, Increased scope for plastisols in	279
Coil coating pretreatment, Modern approaches to	202
Coil coatings: Have they come of age?	382
Aqueous	382
Coil storage, Automatic	65
Company profiles	36, 69, 201, 243, 254, 256, 308, 320, 352, 360, 394, 548, 667, 673
Comprehensive safety portfolio from UK supplier	394
Conversational EDM	378
Cost control — Part II, A planned approach to	318
Cost effective wire EDM	372
Creating new markets and opportunities	201
Curtain coating allows substrate flexibility — Metal stockholder extends traditional customer services	96
Cutting techniques	588

D

Deburring, Belts and brushes for	246
Deep drawing and ironing	474
Deep drawing and ironing 1985 style	474
Deep drawing of aluminium using smooth and roughened punches, Effect of material variables on the	484
Deep drawing operations, Improved techniques reduce	480

Developments in resistance welding controls	538
Developments in sawing equipment, services and techniques	312
Diverse skills at automotive aftermarket supplier	243

E

ECCA interview, The	387
ECCA News	42, 202, 388
ECCA spring meeting, Vienna venue for	368
Economical small batch production	478
Editorial Programme 1986	600
EDM, Conversational	378
Effect of material variables on the deep drawing of aluminium using smooth and roughened punches	484
EMO (6) Exhibition preview	432
Energy relations for underwater explosive sheet metal forming	258
Epoxy, The tough choice: Acrylic or	560
Established traditions in Britain's first new city	674
Exploring a new strategy for maintenance	606
Exporters, Help for	43

F

Family company spearheads laser cutting	590
Fastener technology in Europe, Advanced	555
Fastenings: United for ever	555
Fineblanking gives quality plus economy	128
Fineblanking survey	122
Fineblanking technology, Tooling systems and types of tooling used in	124
Flexible and economic coating	88
Folding and shearing	358
For hire — 50 years of applied research	27
Forming diagram for axisymmetric sheet forming from thickness measurements, The determination of the	551
Forming limits, Just another look at	44
Forming limits of AK steel sheets, The plastic instability and	390
Furniture supplier introduces pre-finished material to its systems range	179
Furniture, The design and manufacture of metal	180

G

Germany — National Equipment Manufacturers review	137
Glueing by robot increasingly common in the car industry	563

H

Handling efficiency, Storage and	62
Handling problems for the stockholder	60
Handling systems for entry/exit production equipment	239
Help for exporters	43
Helping industry improve productivity, reduce costs and raise quality	187
High-speed presses help switchgear manufacturer expand	256
High technology equipment on show	370
Holloware production line, Hydraulic presses update	72
Hooper, John — Retirement	214
Hydraulic gauge and width control systems	332
Hydraulic presses update holloware production line	72
Hydroabrasive nozzles and special fluids give water jet cutting the power of a laser	594

I

Improved techniques reduce deep drawing operations	480
In-house training at steel stockholder	514
In-process contact gauging for maximum accuracy	331
Increased scope for plastisols in coil coating	279
Industrial lasers and applications	418
Industry comes of age, An	86
Industry improves productivity, reduce costs and raise quality, Helping	187

Ins and outs of presswork	238
Integrated press lines from Scandinavian supplier	495
Integrated spinner expands product portfolio	544
International Coating News	102, 271, 282, 622
ISME News	14, 81, 177, 279, 299, 354, 514, 681
ISME Silver Medal Award Lecture	11

J

Just another look at forming limits	44
-------------------------------------	----

L

Laser cutting, Family company spearheads	590
Laser sheet metal sub-contracting	592
Laser versus mechanical cutting techniques	588
Lasers and applications, Industrial	418
Last Words	50, 84, 170, 222, 268, 340, 396, 520, 580, 620, 687
Leicestershire company equipped to meet the challenge	122
Levelling of sheet and strip	599

M

Maintenance, Exploring a new strategy for	606
Manufactured in Italy	654
Materials Coating International	86, 271, 444, 622
Materials Engineering exhibition and conference	566
Materials handling and storage	60
Metal coating sheet and strip production in Australia	273
Metal Makes It	71, 122
Metals Engineering '86	58, 161, 220, 268
Metal, So much more than	510
Metal spinning and shear forming	540
Metal stockholder extends traditional customer services, Curtain coating allows substrate flexibility	96
Metalforming equipment manufacturers of the FRG	137
Metalworking and automation at Hannover	432
Metalworking '86 International	442, 616, 686
Modern approaches to coil coating pretreatment	202
Modern developments in tube bending	322
Modern laboratory techniques for assessing the quality of steel sheet and strip	414
Moving with the times	69
Multi blanking line at UK stockholder	509
Multi-national expands coating facilities	277

N

National equipment manufacturers review — Germany	137
National profile — Italy	654
National survey	569
New approach to pattern development	680
New name in coating, The	93
New kegs for old	71
New towns, new opportunities	300
News Review	2, 54, 112, 172, 228, 290, 344, 400, 464, 522, 582, 642
Non-ferrous metal stockholding	507

O

Office equipment manufacturer goes CNC	184
Office furniture, Automated production of	179

P

Pattern development, new approach to	680
Pattern for the future	278
Photo etch? Why	279
Plastisols in coil coating, Increased scope for	275
Platingworking productivity, CNC improves	430
PMC — stress free production	376
Positive advantage from rural location	667
Practical considerations in determining material parameters in the tensile test	511

SHEET METAL INDUSTRIES 1985 INDEX

JANUARY TO DECEMBER, VOLUME 62

A

A major force in expanding CNC markets	121
A microcomputer based blank layout solution for metal stamping	156
A planned approach to cost control — Part II	318
Abrasive techniques for efficient finishing	246
Acrylic or epoxy, The tough choice	560
Adding technology increases productivity	78
Adhesives aspect of the ECV3	563
Advanced fastener technology in Europe	555
Air plasma cutting system aids versatility	598
Aluminium coating line, Working principles of a high speed	98
Aluminium foil coater rolls into profitability	280
Aluminium stockholders what they are and what they should be	153
Aluminium, The multiple faces of	508
An industry comes of age	86
Annual Technical Review	410
Aqueous coil coatings: Have they come of age?	382
Automated 85 exhibition preview	193
Automate or liquidate	320
Automated production of office furniture	179
Automatic coil storage	65
Automobile floorline uses robotic, automatic and manual welding techniques	306
Automotive aftermarket supplier, Diverse skills at	243

B

Belts and brushes for deburring	246
Bending plate profiles and four-sided parts, System for	425
Blank layout solution for metal stamping, A microcomputer based	156
Blanks guillotined with the minimum of noise	241
Bulge-forming of thin-walled tubes, Profile shape and thickness distribution in free	326
Buyers' guide to robotic units	192

C

CAD/CAM system for cold rollform tooling	147
Carving a name in contemporary industry	272
Centenary celebration at Northland supplier	492
Chemically milled discs in explosives detectors	376
CNC improves plating productivity	430
CNC markets, A major force in expanding	121
CNC, Office equipment manufacturer goes	184
CNC profiling tables	596
Coater rolls into profitability, Aluminium foil	280
Coating facilities, Multi-national expands	277
Coating, Flexible and economic	88
Coating line, Working principles of a high speed aluminium	98
Coating, The new name in	93
Coil coater commissions plant, The new name in coating — Europe's latest	93
Coil coating capacity, World	90
Coil coating in North America	569
Coil coating, Increased scope for plastisols in	279
Coil coating pretreatment, Modern approaches to	202
Coil coatings: Have they come of age?	382
Aqueous	382
Coil storage, Automatic	65
Company profiles	36, 69, 201, 243, 254, 256, 308, 320, 352, 360, 394, 548, 667, 673
Comprehensive safety portfolio from UK supplier	394
Conversational EDM	378
Cost control — Part II, A planned approach to	318
Cost effective wire EDM	372
Creating new markets and opportunities	201
Curtain coating allows substrate flexibility — Metal stockholder extends traditional customer services	96
Cutting techniques	588

D

Deburring, Belts and brushes for	246
Deep drawing and ironing	474
Deep drawing and ironing 1985 style	474
Deep drawing of aluminium using smooth and roughened punches, Effect of material variables on the	484
Deep drawing operations, Improved techniques reduce	480

Developments in resistance welding controls	538
Developments in sawing equipment, services and techniques	312
Diverse skills at automotive aftermarket supplier	243

ISME News	14, 81, 177, 279, 299, 354, 514, 681
ISME Silver Medal Award Lecture	11

J

Just another look at forming limits	44
-------------------------------------	----

L

Laser cutting, Family company spearheads	590
Laser sheet metal sub-contracting	592
Laser versus mechanical cutting techniques	588
Lasers and applications, Industrial	418
Last Words	50, 84, 170, 222, 268, 340, 396, 520, 580, 620, 687
Leicestershire company equipped to meet the challenge	122
Levelling of sheet and strip	599

M

Maintenance, Exploring a new strategy for	606
Manufactured in Italy	654
Materials Coating International	86, 271, 444, 622
Materials Engineering exhibition and conference	566
Materials handling and storage	60
Metal coating sheet and strip production in Australia	273
Metal Makes It	71, 122
Metals Engineering '86	58, 161, 220, 268
Metal, So much more than	510
Metal spinning and shear forming	540
Metal stockholder extends traditional customer services, Curtain coating allows substrate flexibility	96
Metalforming equipment manufacturers of the FRG	137
Metalworking and automation at Hannover	432
Metalworking '86 International	442, 616, 686
Modern approaches to coil coating pretreatment	202
Modern developments in tube bending	322
Modern laboratory techniques for assessing the quality of steel sheet and strip	414
Moving with the times	69
Multi blanking line at UK stockholder	509
Multi-national expands coating facilities	277

N

National equipment manufacturers review — Germany	137
National profile — Italy	654
National survey	569
New approach to pattern development	680
New name in coating, The	93
New kegs for old	71
New towns, new opportunities	300
News Review	2, 54, 112, 172, 228, 290, 344, 400, 464, 522, 582, 642
Non-ferrous metal stockholding	507

O

Office equipment manufacturer goes CNC	184
Office furniture, Automated production of	179

P

Pattern development, new approach to	680
Pattern for the future	278
Photo etch? Why	279
Plastisols in coil coating, Increased scope for	275
Platingworking productivity, CNC improves	430
PMC — stress free production	376
Positive advantage from rural location	667
Practical considerations in determining material parameters in the tensile test	511

Pre-coated coils for building, Some factors influencing resistance to corrosion in	37
Press and forming machines make sense for the profit conscious, Service contracts on	613
Press line at Hotpoint lives up to promise	481
Press shop modernisation	238
Pressings, Taking the edge off	80
Presswork from Midlands supplier, Specialist	673
Presswork, Ins and outs of	238
Preventative maintenance	606
Products and Processes	48, 81, 162, 216, 264, 337, 380, 515, 574, 617, 683
Profile shape and thickness distribution in free bulge-forming in thin-walled tubes	326
Profiling tables, CNC	596
Profit through reliability	329
Punch press, The flexibility	16
Punch press survey	16
PVF film chosen to protect power station	93

Q

Quality control	329
Quality control circle activities	33
Quality counts	29, 668

R

Regional profile — Scandinavia	492
Regional survey — Scottish New Towns	300
Regional survey — Milton Keynes	674
Research, For hire — 50 years of applied	27
Resistance welding controls, Developments in	538
Restructuring for today and tomorrow	352
Retrofit for profit	74
Retrofitting for profitability	74
Robot associations worldwide	191
Robotic units, Buyers' guide to	192
Robotics survey	190
Robots — revolution or rebuff?	190
Roll feed systems, Strip	334
Rollform tooling, CAD/CAM system for cold	147
Rotary blanking	134

S

Sawing equipment, services and techniques, Developments in	312
Sawing technology	310
Saws and sawing in the sheet metal industry	310
Scandinavian Coatings Show	100
Scottish New Towns, Regional Survey	300
Selling service and products	36

Service contracts on pressing and forming machines make sense for the profit conscious	613
Shearing centre manufacturer finds larger premises	360
Sheet and strip, Levelling of	599
Sheet metal and plating machinery, The technical (r)evolution in the field of	364
Sheet metal forming, Energy relations for underwater explosive	258
Sheet metal industry, Saws and sawing in the	310
Sheet metal sub-contracting, Laser	592
Sheet metal working machinery, The control of	410
Shotblasting for a high gloss	248
Silver anniversary for UK equipment supplier	254
So much more than metal	510
Some factors influencing resistance to corrosion in pre-coated coils for building	37
Spark erosion and photo etching	372
Specialist presswork from Midlands supplier	000
Spinner expands product portfolio, Integrated	544
Spinning a legend in sound	542
Spinning for profit	540
Spun and flow turned fabrications	548
Stainless steel marine transportation tanks	255
Stainless Today supplement	Jan
Starting where others leave off	276
Steel sheet and strip, Modern laboratory techniques for assessing the quality of	414
Steel sheets, The plastic instability and forming limits of AK	390
Stitch folder developed for white goods industry	564
Stockholder, Handling problems for the	60
Stockholder, In-house training at steel	514
Stockholder, Multi blanking line at UK	509
Stockholders what they are and what they should be, Aluminium	153
Stockholding today	150, 506
Storage and handling efficiency	62
Strip feed press	241
Strip roll feed systems	334
Stud welding suits automated assembly	556
Substantial exports from Comecon manufacturer	503
System for bending plate profiles and four-sided parts	425

T

Taking the edge off pressings	80
Temper processing	212
Tensile test, Practical considerations in determining material parameters in the	511

The birth pangs of a new concept	29
The control of sheet metal working machinery	410
The design and manufacture of metal furniture	180
The determination of the forming diagram for axisymmetric sheet forming from thickness measurements	551
The flexible punch press	16
The great partnership	150
The multiple faces of aluminium	508
The new name in coating — Europe's latest coil coater commissions plant	93
The place of the metal stamper in the manufacturing structure	11
The plastic instability and forming limits of AK steel sheets	390
The technical (r)evolution in the field of sheet metal and plating machinery	364
The tough choice: acrylic or epoxy	560
Tooling systems and types of tooling used in fineblanking technology	124
Traditional components by modern methods	550
Trends in electronic welding controls	423
Triple benefit results from company purchase	682
Tube bending, Modern developments in	322
Tube manipulation	322
Tubes, Profile shape and thickness distribution in free bulge-forming of thin-walled	326

U

UK equipment supplier automates product range	308
---	-----

V

Vision inspection system for high speed presses	668
---	-----

W

Water jet cutting the power of a laser, Hydroabrasive nozzles and special fluids give	594
Welding controls, Trends in electronic	423
Welding robots for multiple applications	252
Welding techniques, Automobile floorline uses robotic, automatic and manual	306
Why photo etch?	375
Wire EDM, Cost effective	372
Working principles of a high speed aluminium coating line	98
World coil coating capacity	90
